### Profile

I am very much an enthusiastic person on how websites are made and what is the logic behind making those wonderful websites. That's why I choose to become a web developer so that I can understand that logic and not just understand it but one day makes it with my own hands. I know this field is filled with challenges and this might be a very bumpy road in my career but I also know nothing comes without struggling and when you get it after struggling for it, then it becomes the greatest weapon in your arsenal. I am a good observer and a fast learner. I also like to work on new topics which are not in my comfort zone. I can work as a team player but if the situation demands I can also work as a group leader. I don't like putting any kind of restriction on myself, that's why I like to keep exploring new things and technologies, whenever and however I can.

### Education

2021 – present Haldia, India	<b>B.Tech(Computer Science and Engineering), Haldia Institute of Technology</b> Result of 1st semester:- 9.22 SGPA Result of 2nd semester:- 9.69 SGPA MAR Score in the first year:- 62 Point
